

## Assignment -4

### Docker and Kubernetes

Assignment Date	12 NOVEMBER 2022
Student Name	INEDRA SALIL BHARATI
Student Roll Number	210819104030
Maximum Marks	2 Marks

#### 1. Pull an image from docker hub and run it in docker Playground

The screenshot shows two browser windows. The top window is Docker Hub, displaying the repository page for `uifd/ui-for-docker`. The page indicates that the repository is deprecated and suggests using Portainer instead. The Docker Pull Command is shown as `docker pull uifd/ui-for-docker`.

The bottom window is Docker Playground, showing a virtual machine instance named `cd9an2u3_cd9av060qau0008hbjs0`. The instance has an IP address of `192.168.0.13`. The terminal output shows the following commands and results:

```
# This is a sandbox environment. Using personal credentials
# is HIGHLY discouraged. Any consequences of doing so are
# completely the user's responsibilities.
#
# The PWD team.
